

# SAN GABRIEL VALLEY WATER COMPANY

November 8, 2021

Subject: Fardon Street Pipeline Improvement  
Fardon Street. East of Allgeyer Avenue;  
Allgeyer Avenue. North of Central Avenue;  
South El Monte, California  
Our Job No. 9164L

Dear Resident,

As part of our ongoing capital improvement project, San Gabriel Valley Water Company will be replacing an existing water line in the street fronting your property at the subject location. The project will replace the existing 4-inch diameter pipe with new 6-inch diameter pipeline. The new pipeline will provide reliable water service and improve the hydraulics of the water system for your neighborhood. Our project is anticipated to start on November 15, 2021 and will take approximately Six (6) weeks from the start date to complete the pipeline installation.

During construction, San Gabriel Valley Water Company's contractor will place temporary pavement over the utility trench to allow normal traffic conditions to resume and to allow residents access to their properties. When the full length of the pipeline is completely installed, San Gabriel Valley Water Company's contractor will restore the street surfaces at the subject location by installing permanent asphalt pavement. This will require about another two to three days of work approximately two to four weeks after completion of the pipeline installation to complete the paving work.

Except for occasional short delays, you will have complete access to your property during the construction period. If any disturbance of landscaping or concrete work on your property is required to complete the installation of our facilities, these items will be restored to their original conditions just prior to construction. Please be assured that we will make every effort to minimize any inconvenience to you.

If you have any question about our project or need additional information, please call Larry Keeling, Brkich Construction. Construction Superintendent, at (626) 945-0608 or Jerry Zhu, San Gabriel Valley Water Company's Field Engineer, at (909) 550-7520. Outside of normal business hours, please call (626) 448-4029 and talk to San Gabriel Valley Water Company's Dispatcher who is available 24 hours a day and 7 days a week, day and night.

Again, thank you for your understanding and cooperation.

Very truly yours,

Huarong (Jerry) Zhu, E.I.T.  
Field Engineer
